Key requirements usually include:

A valid passport (with at least 30 days' validity beyond your planned stay)

Evidence of onward travel (return or onward ticket)

Proof of sufficient funds for your stay

Yellow fever vaccination certificate, if coming from or transiting through a high-risk country

Rules change from time to time, so it's always a good idea to check the latest entry requirements via the South African Department of Home Affairs or your local South African embassy before booking.

Please access <https://www.gov.za/services/temporary-residence/visa> for more info

Zimbabwe

Zimbabwe:

International visitors do require a visa upon entering. Please visit <https://www.evisa.gov.zw/faq.htm> for more information

This information is given in good faith but may be subject to change without warning. Please note that, where appropriate, obtaining a valid visa is ultimately your responsibility. Please consult a visa agency or the consular authorities 4-6 weeks before departure for the most up-to-date information

Vaccinations & Health Advice: 1. Yellow Fever for both South Africa and Zimbabwe is required

Required if you are arriving from, or transiting for more than 12 hours through, a country with yellow fever risk.
